the evidence against Frank Lewis, charged with killing Lou Davis, his mistress, with a bed-slat, brought in a verdict yesterday of murder in the second degree. His pun-ishment was fixed at sixteen years and aine months in the penitentiary. The case was one of the most remarkable ever the officers in charge of the jury and one of the attorneys were all darkies, and from this fact it was confidently predicted that to bring an ingenious proposition of common law to bear—that when a man and woman sustain the relations of husband woman sustain the relations of husband and wife to each other they are such in the eyes of the law. As Tennessee

has never recognized the "common-law form of marriage," this also fell through. The reason for attempting to show such a relationship can easily be understood when it is stated that no man in this State can be convicted of a greater offense than manslaughter should be find a man flagrante delicto with his wife and kill him. Failing in this the defense was obliged to fall back upon the conflicting statements of witnesses. Yet when they found he had killed the woman, if they had not taken the fact of their social relations into consideration, they would have re-

urned a verdict of murder in the first in tend of the second degree. Poisoned with Potash and Mercury is the tale of a large percentage of sick there are not as many victims to this min

St. Louis, February I.—Two slight movements of the ice in the harbor this afternoon resulted in breaking a hole in the hull of the small sternwheel steamer Maggie, lying near the bridge, and sinking the Clarksville Packet Company's wharf boat lying at the foot of Carroll street. The derrick on the steamer John B. Maude was thrown down, and falling on the hurricane roof, damaged it to the amount of a few hundred dollars. Between 7 and 8 o'clock to-night a more general movement was made, and so far as can be ascertained was made, and so far as can be ascertained was made, and so far as can be ascertained was made, and so far as can be ascertained was made, and so far as can be ascertained was made, and so far as can be ascertained was made.

o'clock to-night a more general movement was made, and so far as can be ascertained at this writing all the ice between the Chain of Rocks, about seven miles above the city, to probably Carondelet, six miles below the city, has run out, but no additional damage to any river craft has yet been reported. Several valuable steamers and a turble of hurges are lying between the sectional docks and the arsenal, two or three miles below the bridge, and these may have suffered damage, but none is yet reported.

Ladies

Do you want a pure, blooming Complexion! If so, a few applications of Hagan's MAGNOLIA BALM will gratify you to your heart's con-tent. It does away with Sallowness, Redness, Pimples, Blotches, and all diseases and imperfections of the skin. It overcomes the flushed appearance of heat, fatigue and excitement. It makes a lady of THIRTY appear but TWEN-TY; and so natural, gradual, and perfect are its effects, that it is impossible to detect its application.
